Tammo comes off as someone who genuinely wanted us to learn as much as possible, and did whatever was in his power to make us succeed. He helped me understand certain nuances on the material that was not covered in lecture, and overall was very receptive to questions.

I honestly cannot say enough good things about Tammo. He has worked so hard to make what was often a difficult, or at least not especially well explained course, not only understandable, but quite good. Tammo consumes emails at all hours of the day, sends homework help, advice, & is always open to meet & help. I honestly don't remember many a TA as good as Tammo in my time at Hopkins. I mean that really sincerely.

His knowledge of the material was excellent and explained the more difficult concepts in a simplified way. I would recommend him to any friend taking this course. I never had any one-on-one time, so there wasn't much gain in terms of my development as a student.

Overall the structure of section was good and the material was presented clearly.
